

CASE STUDY - PROJECT: The Compton Cross

The use of **LX BENIF Interior Film** on projects like the refurbishment of the **Compton Cross cocktail bar** demonstrates its versatility for use in a wide range of applications and illustrates why **spAce Architectural Interiors** are seeing an increasing demand from specialist contractors, shop fitters and interior designers who are looking for cost effective solutions and innovative finishes for their refurbishment projects.

Interior film 'in the frame' for Soho Pub Refurbishment.

The **Compton Cross cocktail bar** in London's Soho district was formerly Molly Moggs, a legendary pub and cabaret venue which recently closed.

New owners, **The Marmalade Pub Company** wanted to retain the character of the original pub while developing it into a more stylish and contemporary cocktail bar.

- ▲ Specialist contractor **T6** used **LX BENIF Interior Film**, an architectural film manufactured by **LX Hausys** and supplied in the UK by **spAce Architectural Interiors**, to 'wrap' around PVC board which had been cut into strips and used to frame the mirrored areas which featured throughout the bar and seating areas.

The flexibility of **LX BENIF Interior Films** ensured that even the rebated edges of the PVC frames did not present a problem, creating a seamless smooth finish.

This unique self-adhesive film is quick to install and can be applied to almost any interior surface including: wood, metals, plasterboard, plastics and even melamine.

Easy to clean and maintain, **LX BENIF Interior Film** is hardwearing and remains stable if exposed to heat, humidity or low temperatures. It has also passed robust bleach tests when used in hospital applications.

Available in a wide range of designs and finishes, **LX BENIF Interior Film** has a CE and IMO classification so can be specified with confidence.

▲ LX BENIF Interior Film was used to wrap around the PVC board.

▲ Even the rebated edges of the frames did not present a problem for Interior Film.

▲ Increasing demand for interior film from specialist contactors, shop fitters and designers.
