

LX Hausys Interior Film

Cleaning and Maintenance

Regular cleaning is recommended to help maintain the appearance and finish of your Architectural Interior film. Please find instructions below for best practice.

- Use mild detergent and water, and a soft cloth or sponge without abrasives.
- For difficult stains, spot clean with a diluted Isopropyl Alcohol solution and a soft cloth.
- Avoid using strong solvents or detergents that are either highly alkaline (pH>11) or acidic (pH<3).
- Do not use ammonia, chlorine, or strong organic based cleaning products, polishing or cleaning compound, hard-bristle brushes or electric polishing equipment.
- Use only clean, nick-free tools and wipe gently.
